TYLER STALEY

Welcome to the 2015 edition of the Carlisle GM Nationals – thanks for being a part of the show! It is hard to believe this will be my third season working as the event manager for this show; it has truly been a wonderful experience. As you walk around the show this weekend, I am sure you will notice a particular '80s vibe, especially in Building Y. This special throwback

theme relates to our anniversary celebration of the IROC-Z Camaro, which turns 30 this year! To help get everyone in the '80s mood, we have the My-80s band playing near the Subway building, a themed atmosphere in Building Y, an '80s beauty contest and even some vintage IROC-Z ads playing in the food court.

Along with our IROC-Z cars, I am happy to welcome Mr. Jerry Palmer, who was the lead designer of the Third Generation Camaro. He will be here all weekend to meet and greet enthusiasts, as well as offer informative seminars on his design process. Also on our list of unique displays and special guests is the Fabulous Fins showcase, some incredibly preserved cars from the famed Lambrecht Chevrolet auction, KITT from the show Knight Rider, and our resident noise-maker, Mr. Bruce Larson.

Another major highlight is easily one of the most important Chevrolets ever produced – the very first Camaro (#N100001). Our friends from the Super Car Workshop, along with the generous owner and Mr. Phil Borris, helped to bring this car, which is literally the first of its kind, to our event this weekend. Be sure to visit Building G to learn more about the very first Camaro. Needless to say, we have a little bit of everything on display this year.

From special displays and guests to our hands-on activities at the autocross track, there is something for everyone at the show this year. Whether you're here for the first time or as a long-time attendee, thank you all the same for your support and enthusiasm!

A group of car builders/enthusiasts began their professional career creating and touring an award-winning car club – wrTeam. Their passion evolved from showing, building and tuning cars to promoting and judging events. For over a decade, the partners of eJudged have been actively judging car shows, producing and manually-calculating countless judging sheets along the way. Traditional methods of judging car shows involved tediously counting results and ballots, and so eJudged was created to provide a more efficient, accurate and time-saving method of judging a show. The state-of-the-art application calculates results in real-time and provides car show managers with a smooth judging process and decreased overhead.

A Future Classic

By Tyler Staley, Event Manager

Many cars will go through a type of cycle in their life where, initially, they represent the best a company has to offer and are at the forefront of performance. Eventually, after the cars are about 10 years old or so, they start to become cheaper and more affordable to used car buyers. They then will start to get lower to the bottom of their price range, which means they can be bought cheaply by younger enthusiasts. For a while, the Third Generation Camaro was in the bottom portion of its value curve, and many cars were purchased by people who wanted inexpensive, V8, rear wheel drive cars to have fun in and beat on.

Now, however, the Third Generation Camaro, especially the IROC-Z, has started to gradually climb in value. People are beginning to recognize the

simple mechanics, reliable power and unique retro styling of these cars. Given, there are still some pretty rough examples around, but that can be true for just about any car produced. The IROC-Zs are starting to bring very decent money, with low-mileage and uniquely-optioned examples sometimes bringing \$20,000 or more when sold to the right buyer. The IROC-Z is becoming a future classic, meaning it is gaining popularity as a collectible and respected car.

The stereotypes surrounding Third Gen owners are still prevalent (we even have a club called the Mullet Militia!), but now it is mentioned more in jest rather than in all seriousness. You can still drive through a rural area and likely see a roughed-up Third Gen parked under a tree, covered in sap,

sitting on cinder blocks and long since forgotten. But, you can also go to a car show and see a beautifully preserved or restored Third Gen, with a passionate and enthusiastic owner at the wheel. The IROC-Z and the Third Gen family have started an upward trend in the hobby. These uniquely-styled, retro cars have a lot to offer with a plentiful aftermarket and a very dedicated fan base. The next time you see a Third Gen Camaro and question its place in the collector car hobby, just remember that at one point in time, your classic car may have been viewed as "too new" or "not a true collector car" by another group. These cars are just taking their journey through the cycle of collectability and I, for one, am glad to see these spectacular vehicles moving into the spotlight.

The company's inventory doesn't stop at just new and custom parts, because they also have an entire section of their site dedicated to N.O.S. pieces and even rare and original used GM parts. The company also hosts a

page dedicated to installation tips for interior installation, replacing your brake lines and other projects that can require a few extra steps. Camaro Central also has a webpage dedicated to cars for sale by their customers. It is safe to say that whether you need brand new pieces, N.O.S. parts or even a whole car, Camaro Central truly is a one-stop shop for all of your Camaro needs.

JOSH SIGMAN WITH HIS GROWING CAR COLLECTION

Local Collector, Josh Sigman

By Sarah Burkarth, Carlisle Events Social Media Coordinator

Carlisle Events is proud to say that we have fans all over the world, but Carlisle locals are just as important.

Josh Sigman was born in Enola, PA and moved to Carlisle at the age of 14. He has been attending our events since the 70's, starting with the Spring and Fall Carlisle swap meets. Josh's first time at the GM Nationals was 15 years ago, and he hasn't missed one yet.

While attending as a spectator in 2013, Josh was encouraged by the special display car owners to apply for an invitational spot. This is when we became aware of Josh's extensive collection. His 1964 Cadillac Coupe de Ville is on display in Building T this year.

His current collection also includes a 1948 Chevrolet, 1964 Corvette Sting Ray, 1981 DeLorean DMC12 and a 1982 Malibu Station Wagon. This fall, Josh will be restoring a 1964 Impala 409 and in the future, a 1948 Chevrolet Convertible.

Josh participates in a lot of local exhibition car shows and cruises but says this about Carlisle Events, "I am always

impressed with the amount of dedication by the staff and the great organization of the shows." He also mentioned that he was very impressed with our Bloomsburg Nationals event. His first visit to the Bloomsburg show was last year and he plans to continue going to experience the "vast selection of parts and materials from many vendors."

From a young age, Josh has always been fascinated by cars. "My father let me operate the floor shifter in his 1932 Studebaker and I was hooked for life," he said. As a teenager, he would help his dad restore old police cars that they bought at auction. Trying to keep the car hobby

in the family, Josh now invites his daughter and her family to make the trip from Virginia to attend our events with him and his wife.

When asked what his hobbies were other than cars, Josh couldn't help but keep the car talk flowing. "Relaxation to me is restoring a car. It's gratifying to see a car back to mint condition and knowing that I did it all by myself," he exclaimed. Josh truly is a handyman, also enjoying candle-making and leather tooling.

Stop by Building T to see his '64 Cadillac, and ask him about his growing collection.

Visit the Solid Lifter Showroom, presented by *Super Car Workshop*, in Building G (outside Gate 1) to see the very first Camaro ever built along with a collection of '70 Yenko Deuce Novas and other 70's performance cars.

Camaro N100001 was the first of 49 pilot cars built by Chevrolet at

the Norwood Assembly Plant. They were built and then run through the factory assembly process to check for tooling and manufacturing issues on the line. These pilot cars were crucial to refining the setup of the factory and helped to get everything ready for mass production of the First Generation Camaro.

Visit Building G to hear the complete story of the first Camaro ever built from Phil Borris and the Super Car Workshop team.

There will also be an artifact unveiling at the display on Saturday. Also meet former Norwood workers Pete Noll and Gale Mains

1963 Chevrolet Impala*
Gary Leidich

Check out two Hollywood-related cars this year with KITT from the show "Knight Rider" and the "Smokey and the Bandit" Trans Am that was bought at Carlisle just two months ago. KITT is available for photographs with enthusiasts all weekend. The "Bandit" Trans Am, which sold for over \$180,000 at the Spring Carlisle Auction, came straight from the collection of the Bandit himself, Burt Reynolds. This is a rare opportunity to see a car owned by one of America's favorite movie stars!

You may remember Gary Leidich's '63 Impala from the 2014 GM Nationals. Gary's car is featured alongside another Lambrecht Chevrolet auction car. Joe Carillio's patina-covered Bel Air was another vehicle sold at the world-famous auction a few years ago. While the car is not in the preserved state of the Impala, it's mileage is only around 30,000 and it looks just plain cool! Also, check out David Snyder's painting across the aisle in Building T – you may notice Gary's Impala!

OFFICIAL OIL

AMSOIL specializes in developing synthetic technology designed for those who demand the best. Our full line of synthetic lubricants allows you to harness the full potential of whatever you drive, ride or operate. Since the beginning, AMSOIL has stood apart from other lubricant companies. AMSOIL President and CEO Al Amatuzio founded his company on the same principles that defined his career as a jet fighter squadron commander – excellence, integrity and strong leadership. In 1972, his first breakthrough came. AMSOIL 10W-40 Synthetic Motor Oil, the result of years of research and inspired by aerospace technology, became the first synthetic motor oil in the world to meet American Petroleum Institute service requirements. It outperformed conventional

oils on all counts, signaling a new age in lubrication science.

Since then, our commitment to performance hasn't relented. Our synthetic lubricants – formulated, blended and packaged in Superior, Wis. – continue to reset the standard, enabling you to continue testing the limits of vehicle power, speed and performance.

> vendor incentives

Vending at a Carlisle event can be a great way to make money. Our 82-acre facility has bath houses and many dining options so camping in your vendor space is convenient. Read on about vending at Carlisle.

New Vendors: Free Space

If you've never had space at an event (or haven't for two years), you can get one space FREE if you buy TWO spaces.

Current Vendors: BOGO!

If you buy a vending space at an event where you haven't before, just buy ONE – and get one FREE!

Multi-Show Discounts

If you purchase vending space at 5-6 events during the 2015 season, you will be eligible to receive a 5% discount on your total vendor fees paid. Purchase space at 7 or more events and receive a 10% discount. Discounts will be paid at the end of the season.

Free Event Guide Listings

As a vendor you are entitled to one free specialty listing and will be listed alphabetically in the event guide for each event you attend.

Space Renewals

You have renewal rights to your vending spaces for 90 days after the end of an event. You must renew in that time period to keep the same space for next year.

Early Bird Renewal Discount

The best deal in renewing your vending spaces is to pay for 2016 before the event is over. You'll get a 5% discount! Visit Vendor Services in the Registration building outside Gate 3.

Buy Vending Space Online

New this year! You can buy vending spaces online! Two weeks after the 90-day renewal deadline, all spaces that have not been purchased will be available on a first-come, first-served basis. You can even choose the exact space!
